

114TH CONGRESS  
1ST SESSION

# H. R. 1462

---

IN THE SENATE OF THE UNITED STATES

SEPTEMBER 9, 2015

Received

---

## AN ACT

To combat the rise of prenatal opioid abuse and neonatal  
abstinence syndrome.

1       *Be it enacted by the Senate and House of Representa-*  
2       *tives of the United States of America in Congress assembled,*

1     **SECTION 1. SHORT TITLE.**

2         This Act may be cited as the “Protecting Our Infants  
3     Act of 2015”.

4     **SEC. 2. FINDINGS.**

5         Congress finds as follows:

6             (1) Opioid prescription rates have risen dramatically over the past several years. According to  
7     the Centers for Disease Control and Prevention, in  
8     some States, there are as many as 96 to 143 prescriptions for opioids per 100 adults per year.  
9  
10

11             (2) In recent years, there has been a steady rise in the number of overdose deaths involving heroin.  
12     According to the Centers for Disease Control and  
13     Prevention, the death rate for heroin overdose doubled from 2010 to 2012.  
14  
15

16             (3) At the same time, there has been an increase in cases of neonatal abstinence syndrome (referred to in this section as “NAS”). In the United  
17     States, the incidence of NAS has risen from 1.20 per 1,000 hospital births in 2000 to 3.39 per 1,000  
18     hospital births in 2009.  
19  
20

21  
22             (4) NAS refers to medical issues associated with drug withdrawal in newborns due to exposure  
23     to opioids or other drugs in utero.  
24

25  
26             (5) The average cost of treatment in a hospital for NAS increased from \$39,400 in 2000 to \$53,400

1       in 2009. Most of these costs are born by the Med-  
2       icaid program.

3           (6) Preventing opioid abuse among pregnant  
4       women and women of childbearing age is crucial.

5           (7) Medically appropriate opioid use in preg-  
6       nancy is not uncommon, and opioids are often the  
7       safest and most appropriate treatment for moderate  
8       to severe pain for pregnant women.

9           (8) Addressing NAS effectively requires a focus  
10      on women of childbearing age, pregnant women, and  
11      infants from preconception through early childhood.

12           (9) NAS can result from the use of prescription  
13      drugs as prescribed for medical reasons, from the  
14      abuse of prescription drugs, or from the use of ille-  
15      gal opioids like heroin.

16           (10) For pregnant women who are abusing  
17      opioids, it is most appropriate to treat and manage  
18      maternal substance use in a non-punitive manner.

19           (11) According to a report of the Government  
20      Accountability Office (referred to in this section as  
21      the “GAO report”), more research is needed to opti-  
22      mize the identification and treatment of babies with  
23      NAS and to better understand long-term impacts on  
24      children.

1                         (12) According to the GAO report, the Department  
2                         of Health and Human Services does not have  
3                         a focal point to lead planning and coordinating efforts  
4                         to address prenatal opioid use and NAS across  
5                         the department.

6                         (13) According to the GAO report, “given the  
7                         increasing use of heroin and abuse of opioids pre-  
8                         scribed for pain management, as well as the in-  
9                         creased rate of NAS in the United States, it is im-  
10                         portant to improve the efficiency and effectiveness of  
11                         planning and coordination of Federal efforts on pre-  
12                         natal opioid use and NAS”.

13 **SEC. 3. DEVELOPING RECOMMENDATIONS FOR PRE-**  
14 **VENTING AND TREATING PRENATAL OPIOID**  
15 **ABUSE AND NEONATAL ABSTINENCE SYN-**  
16 **DROME.**

17                         (a) IN GENERAL.—The Secretary of Health and  
18 Human Services (referred to in this Act as the “Sec-  
19 retary”), acting through the Director of the Agency for  
20 Healthcare Research and Quality (referred to in this sec-  
21 tion as the “Director”), shall conduct a study and develop  
22 recommendations for preventing and treating prenatal  
23 opioid abuse and neonatal abstinence syndrome, soliciting  
24 input from nongovernmental entities, including organiza-  
25 tions representing patients, health care providers, hos-

1 pitals, other treatment facilities, and other entities, as ap-  
2 propriate.

3 (b) REPORT.—Not later than 1 year after the date  
4 of enactment of this Act, the Director shall publish on the  
5 Internet Web site of the Agency for Healthcare Research  
6 and Quality a report on the study and recommendations  
7 under subsection (a). Such report shall address each of  
8 the issues described in paragraphs (1) through (3) of sub-  
9 section (c).

10 (c) CONTENTS.—The study described in subsection  
11 (a) and the report under subsection (b) shall include—

12 (1) a comprehensive assessment of existing re-  
13 search with respect to the prevention, identification,  
14 treatment, and long-term outcomes of neonatal ab-  
15 stinence syndrome, including the identification and  
16 treatment of pregnant women or women who may  
17 become pregnant who use opioids or other drugs;

18 (2) an evaluation of—

19 (A) the causes of and risk factors for  
20 opioid use disorders among women of reproduc-  
21 tive age, including pregnant women;

22 (B) the barriers to identifying and treating  
23 opioid use disorders among women of reproduc-  
24 tive age, including pregnant and postpartum  
25 women and women with young children;

(C) current practices in the health care system to respond to and treat pregnant women with opioid use disorders and infants born with neonatal abstinence syndrome;

(D) medically indicated use of opioids during pregnancy;

(E) access to treatment for opioid use disorders in pregnant and postpartum women; and

(F) access to treatment for infants with neonatal abstinence syndrome; and

### 11 (3) recommendations on—

(A) preventing, identifying, and treating neonatal abstinence syndrome in infants;

(B) treating pregnant women who are dependent on opioids; and

(C) preventing opioid dependence among women of reproductive age, including pregnant women, who may be at risk of developing opioid dependence.

20 SEC. 4. IMPROVING PREVENTION AND TREATMENT FOR  
21 PRENATAL OPIOID ABUSE AND NEONATAL  
22 ABSTINENCE SYNDROME.

23           (a) REVIEW OF PROGRAMS.—The Secretary shall  
24 lead a review of planning and coordination within the De-

1 partment of Health and Human Services related to pre-  
2 natal opioid use and neonatal abstinence syndrome.

3 (b) STRATEGY TO CLOSE GAPS IN RESEARCH AND  
4 PROGRAMMING.—In carrying out subsection (a), the Sec-  
5 retary shall develop a strategy to address research and  
6 program gaps, including such gaps identified in findings  
7 made by reports of the Government Accountability Office.

8 Such strategy shall address—

9 (1) gaps in research, including with respect

10 to—

11 (A) the most appropriate treatment of  
12 pregnant women with opioid use disorders;

13 (B) the most appropriate treatment and  
14 management of infants with neonatal absti-  
15 nence syndrome; and

16 (C) the long-term effects of prenatal opioid  
17 exposure on children; and

18 (2) gaps in programs, including—

19 (A) the availability of treatment programs  
20 for pregnant and postpartum women and for  
21 newborns with neonatal abstinence syndrome;  
22 and

23 (B) guidance and coordination in Federal  
24 efforts to address prenatal opioid use or neo-  
25 natal abstinence syndrome.

1       (c) REPORT.—Not later than 1 year after the date  
2 of enactment of this Act, the Secretary shall submit to  
3 the Committee on Health, Education, Labor, and Pen-  
4 sions of the Senate and the Committee on Energy and  
5 Commerce of the House of Representatives a report on  
6 the findings of the review described in subsection (a) and  
7 the strategy developed under subsection (b).

8 SEC. 5. IMPROVING DATA ON AND PUBLIC HEALTH RE-  
9 SPONSE TO NEONATAL ABSTINENCE SYN-  
10 DROME.

11       (a) DATA AND SURVEILLANCE.—The Director of the  
12 Centers for Disease Control and Prevention shall, as ap-  
13 propriate—

14                   (1) provide technical assistance to States to im-  
15                   prove the availability and quality of data collection  
16                   and surveillance activities regarding neonatal absti-  
17                   nence syndrome, including—

(A) the incidence and prevalence of neonatal abstinence syndrome:

20 (B) the identification of causes for neo-  
21 natal abstinence syndrome, including new and  
22 emerging trends; and

23 (C) the demographics and other relevant  
24 information associated with neonatal abstinence  
25 syndrome;

1                   (2) collect available surveillance data described  
2                   in paragraph (1) from States, as applicable; and

3                   (3) make surveillance data collected pursuant to  
4                   paragraph (2) publically available on an appropriate  
5                   Internet Web site.

6                 (b) PUBLIC HEALTH RESPONSE.—The Director of  
7                 the Centers for Disease Control and Prevention shall en-  
8                 courage increased utilization of effective public health  
9                 measures to reduce neonatal abstinence syndrome.

Passed the House of Representatives September 8,  
2015.

Attest:

KAREN L. HAAS,

*Clerk.*
